Design by Billie Temple & Production by Hurtwood Press

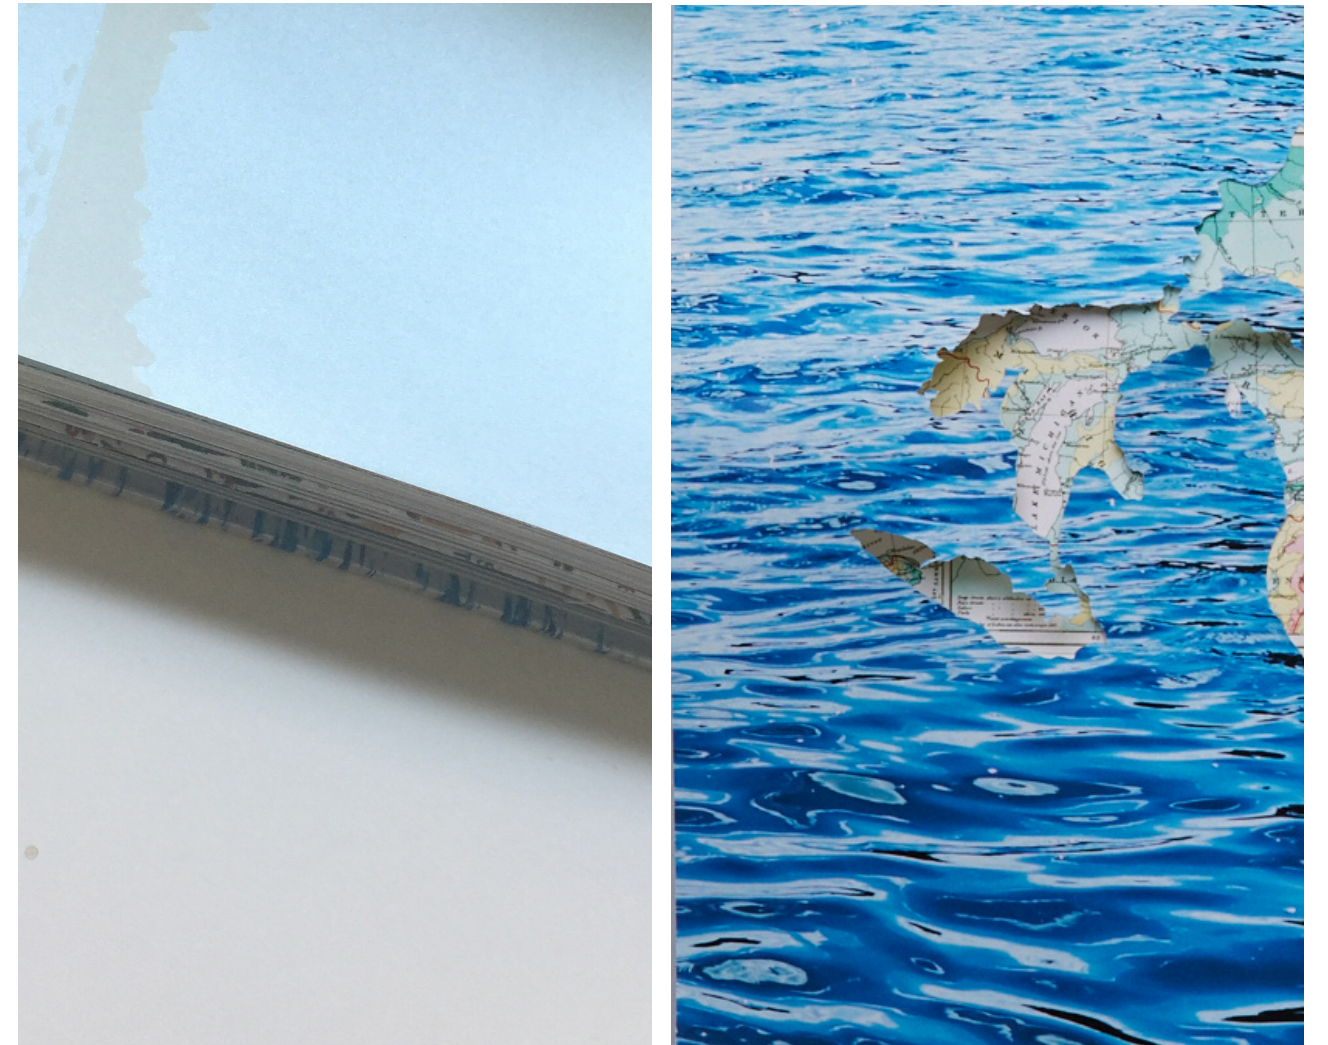

SPIDER LAKE

That Book is memory in physical form. Created as a unique visual and physical record of a family and their own private ‘vacationland’. It is totally unique. It is rooted in photography and curated and designed as a

unique, one-off object; reflective of the beautiful natural setting and close idyllic family retreat. Spider Lake utilizes different and unusual materials and techniques including fabric, multiple specialist papers, hand drawing and die

textures & layers

cutting to mention but a few. It was created with the sole imperative of telling the story of one beautiful summer in Michigan. They was made entirely by hand, using some of the finest crafts-people working today.

Beautifully printed, hand bound and thread sewn – the ‘gold standard’ of book binding. True luxury, genuinely archival and British made. Spider Lake will be enjoyed for generations to come.
